6. Filetin Tomislav, Galinec Josip, Liščić Božidar: QPP-Quenching properties prediction, 1992. (baza podataka i računalni programski paket).
7. Liščić Božidar, Aganović Ibrahim, Zorc Davor, Filetin Tomislav, Jelenković Leo: PARAM-Computer-aided system for simulation of cooling process in vacuum furnaces, 1992. (baza podataka i računalni programski paket).

DRUGE VRSTE RADOVA

1. Liščić Božidar, Filetin Tomislav: Čvrstoća i žilavost materijala, 1993. (HTV - audio/video zapis).
2. Liščić Božidar, Filetin Tomislav: Primjena kompjutera u toplinskoj obradi metala, 1987. (HTV - audio/video zapis).
3. Liščić Božidar, Filetin Tomislav: Projekt rekonstrukcije postrojenja toplinske obrade u tvornici traktora T. Vinković, 1985. (elaborat).
4. Liščić Božidar, Filetin Tomislav, Čihak Drahous. Projekt odjeljenja termičke obrade u tvornici FADIS, 1985. (elaborat).

PATENTI I REALIZACIJA VLASTITIH OTKRIĆA

1. Metoda gradijenta temperature (Temperature Gradient Method) (1978) – prvi puta objavljena u Härterei Technische Mitt. 1978.
2. Liščić/Nanmac proba za mjerenje brzih promjena temperatura pri gašenju – modificirana na osnovi US patenata No.2,829,185. (1958) i No. 4,732,619 (1988)
3. IPSEN-Liščić Flux Sensor, IPSEN Industries International GmbH, Kleve, Njemačka (1995).
4. Koncept adaptivnog procesa gašenja – Flexible adaptive quenching, Patent EP0621344B1, (1999). Autori: B. Edenhofer, B. Liščić i J. Dominik, Vlasnik IPSEN Industries International GmbH, Kleve, Njemačka.
5. Liščić/Petrofer proba za mjerenje temperatura pri gašenju - izrađena u Petrofer GmbH, Njemačka (2013) prema projektu B. Liščića
